The evidence behind the result

1. Linehaul confirmed

Fictional rate confirmation RC-1001, section 1: agreed linehaul is $2,400 for this shipment.

2. Fuel calculated on the agreed basis

RC-1001, section 2: fuel is 20% of linehaul only. $2,400 x 20% = $480; invoice bills $600.

3. Liftgate expressly waived

RC-1001, section 3: liftgate fee waived at the named delivery facility. Invoice bills $125.

Payment action - subject to AP approval

In this fictional agreement, written notice permits withholding supported disputed charges. Recommend paying $2,880 and issuing a written $245 dispute before the agreed deadline. AP approves the recommendation and submits payment and notice.

Real reviews use the customer's actual terms. Missing terms or supporting documents produce a review hold, never an automatic deduction. Carrier credits, accepted deductions and recovered cash are tracked separately.
